

October Deployments

TEXSAR has deployed five times in the last two weeks and has been especially active this past week supporting agencies in Sabinal and Junction, TX as a result of the record breaking flooding in those areas. TEXSAR assisted authorities in searching for five missing persons. We are grateful for everyone's support and contributions through this time. Our condolences to the friends and families of those who continue to be affected.

TEXSAR deployed 166 members and are continuing to log hundreds of hours in their efforts. TEXSAR member Shawn Honstreiter was interviewed by CBS Austin on Tuesday regarding the current flooding in Central Texas.

Texas Search and Rescue says they had to rescue both residents and first responders. First responders in Granite Shoals got to the "Web Isle" and corralled residents, but water rose too fast and they couldn't get off. Required boat rescue. Crews say hypothermia is a big concern.
