

TEXSAR K9 Team

A No-Cost Resource For Agencies

The TEXSAR K9 team brings over 100 combined years of K9 Search & Rescue training and handling experience. We only partner with law enforcement agencies to support their search, rescue, and recovery missions. Handlers and K9's are nationally certified for field operations. The team conducts trainings weekly throughout the state.

K9 Certifications

- Live Find: Area Wilderness and Trailing (Wilderness & Urban)
- Human Remains Detection (HRD): Land & Water

TEXSAR utilizes national standards and certifying agencies (NASAR, NASDN, FEMA, NNCDS) in training and certification.

Deployable Assets

| Handler | K9 | Certifications | Discipline | Location | |
|---------------------------|------------------|----------------------|--------------|-----------------------------------|-----------------|
